

ELASTOFLEX[®] AW65

Plastic Additive

Inspiration of Technology

Descriptions

Elastoflex AW65 is a anti warpage masterbatch. It is designed for improving the dimensional stability and reducing warpage of the olefin product. This material can be used in the semi crystalline polyolefin. Also, food contact is applicable.

Typical properties

Resin Properties	Test Method	Unit	Value
Melt Flow Rate (190°C/2.16kg)	ASTM D1238	g/10min	6.60
Density	ASTM D792	g/cm ³	1.70

Product Data

General Processing Information

Elastoflex AW65 is supplied in grey granular, and is normally add to the base resin at a level of 5% to 10 wt%.

Storage and Keeping Condition

Please keep in dry, room temperature, do not expose sunlight, suitable air ventilation, away from fire, dust and moisture.

Notes

Typical properties; not to be construed as specifications.
